

EXP-01

AIM:

To create a Job Portal web page that embeds a map with hotspots, frames, and links. The web page is designed using HTML and incorporates embedded, external, and inline CSS for styling. This experiment helps in understanding multimedia integration, clickable image hotspots, navigation links, and layout design using different CSS methods for a job portal system.

ALGORITHM:

Create the HTML Structure:

- Set up the basic HTML document using `<html>`, `<head>`, and `<body>` tags.
 - In the `<head>`, link the external CSS file using the `<link>` tag and define the title of the page.
 - In the `<body>`, create sections such as header, sidebar, job listings/content area, and footer.
 - Frames: Use the `<iframe>` tag to embed external content like a Google Map showing job locations.
 - Map: Display job-related locations using an embedded Google Map.
 - Hotspots: Use `<map>` and `<area>` tags to create clickable regions on an image (company/job portal image).
 - Links: Use `<a>` tags to provide navigation links to job sections and external company/job pages.
-

Create CSS Styles:

- External CSS: Define layout, colors, fonts, and alignment in a separate CSS file.
 - Inline CSS: Apply styling directly inside HTML elements using the style attribute.
 - Embedded CSS: Define specific styles inside the `<style>` tag within the `<head>` section.
-

Map with Hotspots:

- Use `<map>` tag to define an image map.
 - Use `<area>` tag with coordinates to create a clickable hotspot that redirects to a job portal/company page.
-

Frames:

- Use `<iframe>` tag to embed Google Map showing job location.

Add Links:

- Use <a> tag for sidebar navigation (Jobs, Companies, Apply, Contact) and external job links.

Test the Page:

- Check whether the hotspot image redirects correctly.
 - Verify the Google Map loads properly.
 - Ensure all CSS styles (inline, embedded, external) are applied correctly.
-

Program

Index.html:

```
<html>
<head>
  <title>Job Portal</title>
  <link rel="stylesheet" href="style.css">

  <style>
    .info {
      background-color: #e6f2ff;
      padding: 10px;
      margin: 10px;
      border-left: 5px solid blue;
    }
  </style>
</head>

<body>

<div class="header">
  
  <span><h1>Job Portal</h1></span>
</div>

<div class="main">
<div class="container">
```

```
<div class="sidebar">
  <h3>Sections</h3>
  <a href="#">Home</a>
  <a href="#">Jobs</a>
  <a href="#">Companies</a>
  <a href="#">Apply</a>
  <a href="#">Contact</a>
</div>
```

```
<div class="content">
  <h2>Welcome</h2>

  <p style="color:green; font-weight:bold;">
    Find and apply for your dream job easily.
  </p>
```

```
<div class="info">
  Browse job listings, explore companies, and apply directly.
</div>
```

```
<h2>Featured Company</h2>
```

```

```

```
<map name="jobmap">
  <area shape="rect"
    coords="0,0,200,200"
    href="https://www.linkedin.com/jobs/"
    target="_blank">
</map>
```

```
<h2>Job Location</h2>
```

```
<iframe
src="https://maps.google.com/maps?q=Chennai&t=&z=13&ie=UTF8&iwloc=&outp
ut=embed"
  width="100%"
  height="250">
</iframe>
```

</div>

</div>

</div>

<div class="footer">

<p>© 2026 Job Portal Project</p>

</div>

</body>

</html>

Style.css:

body {

font-family: Arial, sans-serif;

margin: 0;

background-color: #f2f2f2;

min-height: 100vh;

display: flex;

flex-direction: column;

}

.main {

flex: 1;

}

.header {

background-color: #333;

color: white;

display: flex;

align-items: center;

gap: 12px;

position: relative;

height: 80px;

padding: 10px 20px;

}

.header img {

```
width: 150px;
height: auto;
}
```

```
.header span {
  position: absolute;
  left: 50%;
  transform: translateX(-50%);
  font-size: 20px;
  font-weight: bold;
}
```

```
.container {
  display: flex;
  min-height: 80vh;
}
```

```
.sidebar {
  width: 25%;
  background-color: #e6e6e6;
  padding: 15px;
}
```

```
.sidebar a {
  display: block;
  padding: 8px;
  text-decoration: none;
  color: black;
}
```

```
.sidebar a:hover {
  background-color: #ccc;
}
```

```
.content {
  width: 75%;
  padding: 20px;
}
```

```
.footer {
  background-color: #004aad;
```

```

    color: white;
    text-align: center;
    padding: 10px;
}

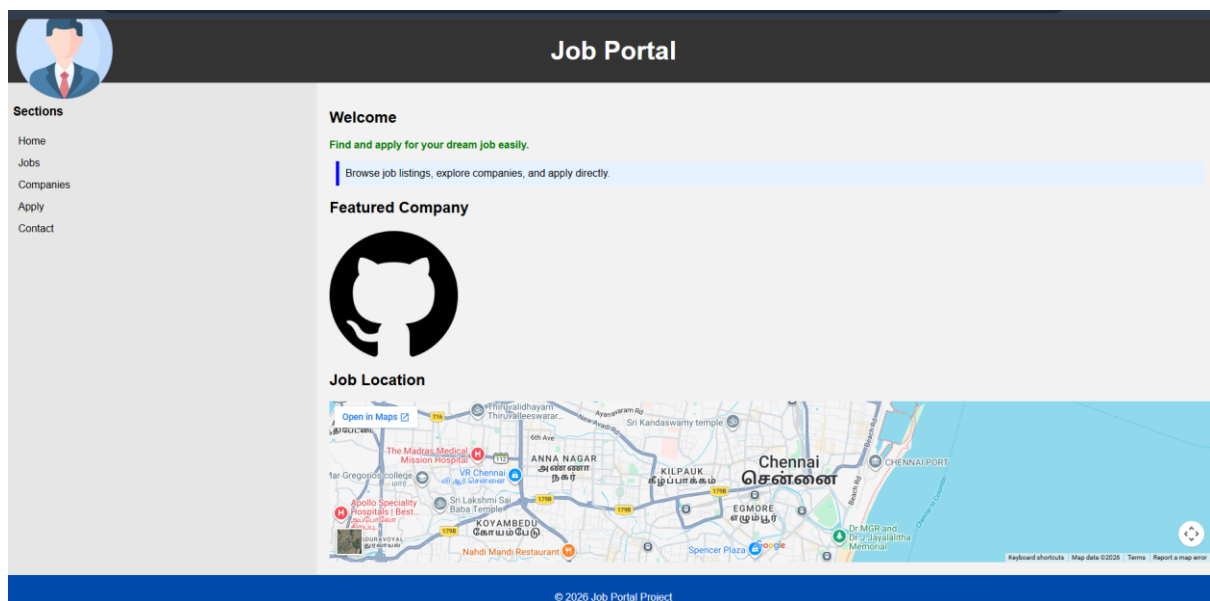

```

```

.sidebar,
.content {
    min-height: 100%;
}

```

OUTPUT:

RESULT:

HTML page is successfully created with embedded map, hotspot image, frames, and links using inline, embedded, and external CSS for the Job Portal project.
