

EXP-02

AIM:

To create a Registration page for the Job Portal website and validate user input using JavaScript. The form should verify required fields such as name, email, mobile number, profile link, resume upload, and address before submission.

ALGORITHM:

Create the HTML Structure:

- Create a Registration page using basic HTML structure.
 - Link external CSS file using <link> tag.
 - Link JavaScript validation file using <script> tag.
 - Create form fields for job applicant details.
 - Use onsubmit event to call validation function.
-

Design the Form:

- Add input fields for First Name, Last Name, Email, Mobile Number.
 - Add Profile link field (Job/Portfolio link).
 - Add Resume upload field.
 - Add Address field using <textarea>.
 - Add Terms & Conditions checkbox.
 - Add Submit button.
-

Apply CSS:

- Use external CSS file for styling.
 - Use proper layout and spacing for form elements matching the required design.
-

JavaScript Validation:

- Validate name (alphabets only).
 - Validate email (must contain @gmail.com).
 - Validate mobile number (10 digits).
 - Validate profile link format.
 - Ensure address is not empty.
 - Ensure resume is uploaded.
 - Ensure terms checkbox is selected.
-

Test the Page:

- Check all validations work properly.
 - Ensure form does not submit if errors exist.
 - Confirm success message appears when valid.
-

Program

Registration.html

```
<html>
<head>
  <meta charset="UTF-8">
  <title>Job Portal - Registration</title>
  <link rel="stylesheet" href="style.css">
  <script src="validate_reg.js"></script>
</head>
<body>

<div class="container">
  <h2>Job Portal Registration Form</h2>

  <form name="regForm" onsubmit="return validateForm()">

    <div class="form-grid">

      <div>
        <label>First Name</label>
        <input type="text" name="fname">
      </div>

      <div>
        <label>Last Name</label>
        <input type="text" name="lname">
      </div>

      <div>
        <label>Email ID</label>
        <input type="text" name="email">
      </div>

  gap: 15px;  
}
```

```
.form-grid .full {  
  grid-column: span 2;  
}
```

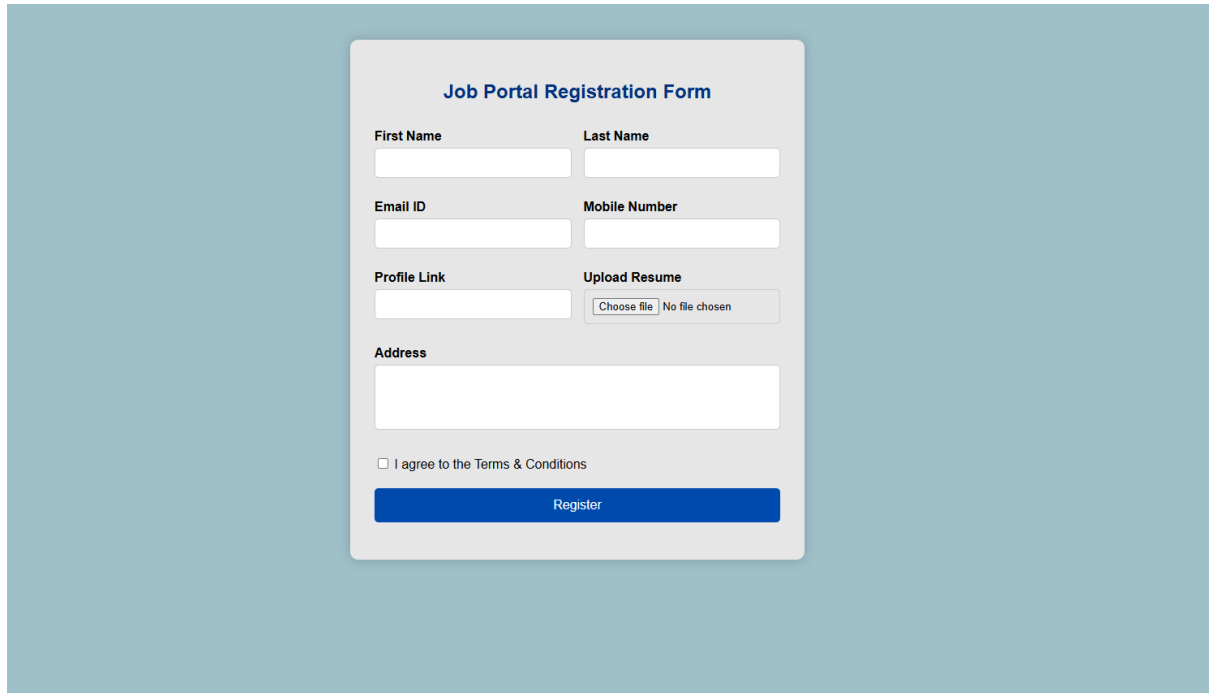

validate_reg.js

```
function validateForm() {  
  
  let fname = document.regForm.fname.value;  
  let lname = document.regForm.lname.value;  
  let email = document.regForm.email.value;  
  let mobile = document.regForm.mobile.value;  
  let profile = document.regForm.profile.value;  
  let resume = document.regForm.resume.value;  
  let address = document.regForm.address.value;  
  let terms = document.regForm.terms.checked;  
  
  let namePattern = /^[A-Za-z]+$;/
```

```
if (!namePattern.test(fname)) {  
    alert("First Name must contain only alphabets");  
    return false;  
}  
  
if (!namePattern.test(lname)) {  
    alert("Last Name must contain only alphabets");  
    return false;  
}  
  
let emailPattern = /^[a-zA-Z0-9._%+-]+@gmail\.com$/;  
if (!emailPattern.test(email)) {  
    alert("Email must be a valid @gmail.com address");  
    return false;  
}  
  
let mobilePattern = /^[0-9]{10}$/;  
if (!mobilePattern.test(mobile)) {  
    alert("Mobile Number must contain exactly 10 digits");  
    return false;  
}  
  
if (!profile.startsWith("http")) {  
    alert("Enter a valid Profile link");  
    return false;  
}  
  
if (resume === "") {  
    alert("Please upload your Resume");  
    return false;  
}  
  
if (address.trim() === "") {  
    alert("Address cannot be empty");  
    return false;  
}  
  
if (!terms) {  
    alert("Please agree to the Terms & Conditions");  
    return false;  
}
```

```
    alert("Registration Successful!");  
    return true;  
}
```

OUTPUT:

The screenshot displays a 'Job Portal Registration Form' centered on a light blue background. The form is a light gray box with rounded corners. It contains several input fields: 'First Name' and 'Last Name' (two columns), 'Email ID' and 'Mobile Number' (two columns), 'Profile Link' (one column), and 'Address' (one column). The 'Upload Resume' section features a 'Choose file' button and a 'No file chosen' text. Below the input fields is a checkbox labeled 'I agree to the Terms & Conditions'. At the bottom of the form is a prominent blue 'Register' button.

RESULT:

Registration page for the Job Portal project is successfully created with proper JavaScript validation. All input fields are validated before submission.
